

# Sustainable Living Tour

Saturday, April 28, 2007, 1 – 4 p.m.

The Sustainable Living Tour, hosted by Michiana Mennonite Earth group, provides practical resources and solutions for sustainable living.

## South Bend

### 11. Home of Becky Reimbold and Bryon Thomas

1127 East Bronson Street,  
South Bend

Energy efficient house includes passive solar features, on-demand water heater, bamboo flooring, and radiant floor heating.

### 12. Home of John and Danile Martens

1702 Spring Street Mishawaka  
Guides: John, Danile Martens

Urban homestead uses permaculture principles including an organic garden, fruit and

nut trees; energy efficient appliances, and masonry heater.

### 13. Prairie Winds Farm

21439 Osborne Road, Lakeville  
Guides: Charlotte, Robert Wolfe

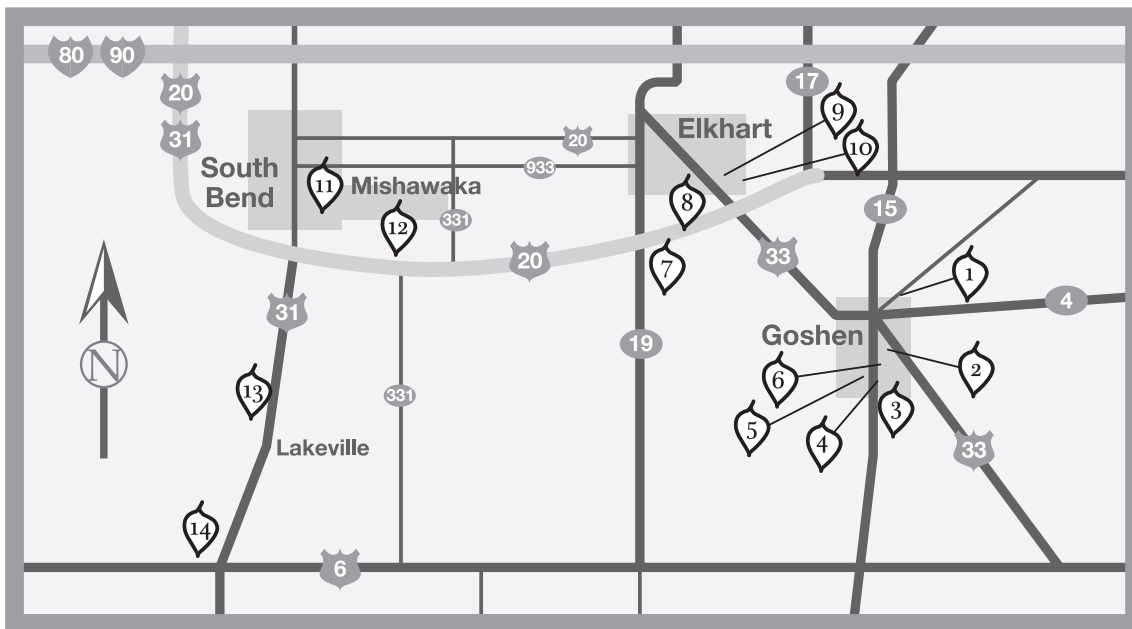

Small-scale, diversified farm restores native wildlife habitat. Includes windmill to pump water to heritage livestock. Timber frame home features indoor wood heat, energy efficient stress

skin panels, and a wetland wastewater treatment system.

### 14. Pine Road Farm

1568 Pine Road, Plymouth  
Guides: Philip and Judy  
Martin Godshalk

Organic farmstead includes an organic, grass-fed dairy farm and home with super insulation and geothermal heating. Milk sold to Stonyfield farms, an organized group of small producers.
